

**Cinte Techtexil China** is the ideal trade fair for technical textile and nonwoven products in Asia. This year the fair welcomes **Swisstulle (Qingdao) Co Ltd** from **China** to showcase their **warp knitted fabric for automobile sunshade**.

*(Detailed product info featured on page 2.)*

## Swisstulle (Qingdao) Co Ltd

Swisstulle AG has been present in the worldwide market for technical textiles for more than 35 years as a manufacturer and supplier of knitted fabrics.

Swisstulle's strength is customer-specific developments and the versatility in their offer. By integrating the individual operations – yarn preparation, knitting, specialized finishing – Swisstulle is able to produce a wide range of high-quality and pollution-free knitted fabrics made of natural, synthetic and high-tech fibers.

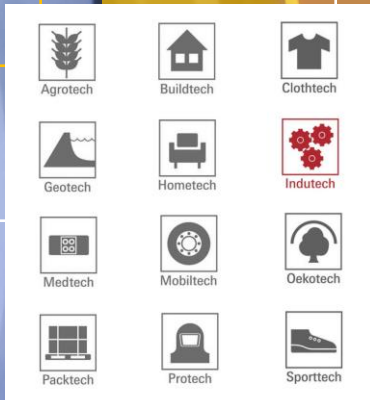

In each department trained professionals are available to implement the specific requirements and specifications. By linking the individual departments, Swisstulle is able to respond quickly (just in time) and specifically to customer requests (just in quality). Quality and flexibility in production and logistics are the focus here.

**"We deliver: Shading, privacy and sun protection"**

As a supplier to the automotive and transport industry, Swisstulle AG meets the high technical delivery requirements of individual vehicle manufacturers and OEMs. Swisstulle AG supplies absolutely reliable knitted fabrics for roller blind systems that offer excellent sun and eye protection and meet safety aspects.

For the aircraft industry Swisstulle AG supplies nets for literature bags.

Swisstulle AG selects the appropriate materials and finishing steps to meet the specific requirements. Depending on the customer's requirements, Swisstulle's knitted fabrics are available in rolls or finished blanks.

Swisstulle AG pays attention to updated quality management and are certified according to ISO 9001.

**Swisstulle AG's** technical knitted fabrics offer passengers protection and comfort in the vehicle interior. Whether used as roof, side or rear window blinds, they help to reduce the interior temperature in the vehicle by blocking and reflecting the sun. Depending on customers' requirements, Swisstulle offers different screen and black-out fabrics in various quality levels and fire protection designs.

#### **Wind deflectors and wind deflectors**

A cabriolet cannot be imagined without it: the airflow is reduced and the journey becomes a pleasure and no "bad-hair-day".

#### **Dividing, protection and luggage nets**

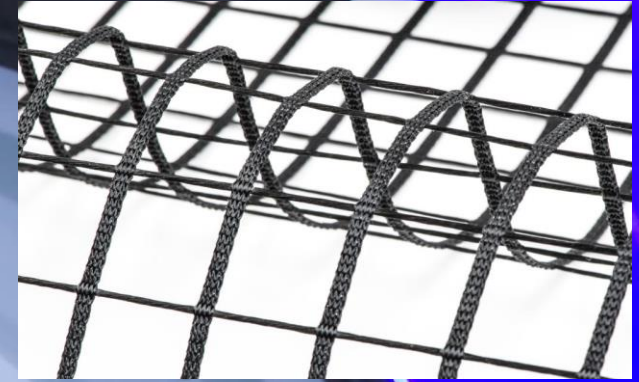

For more safety in the trunk or to secure load or pet.

#### **Nets for seat and door pockets, literature pockets**

To round off seat development in aircraft or automobiles, Swisstulle AG offers various nets that can be used for literature bags.

#### **Load compartment covers**

Swisstulle AG offers technical knitted fabrics as a coating base for cargo area covers.
