

Cinte Tectextil China is the ideal trade fair for technical textile and nonwoven products in Asia. This year the fair welcomes **Perlon Nextrusion Monofil GmbH** from **Germany** to showcase their **Monofilament for PMC & ATT, synthetic brush and abrasive filaments**.

(Detailed product info featured on page 2.)

Perlon (Zhejiang) Co Ltd **Perlon Nextrusion Monofil GmbH**

We are an innovative, global group of companies specialized in the manufacture of synthetic filaments in diverse areas of application.

Our factories in Germany, USA and China produce filaments for applications in the paper machine industry (PMC), the brush industry and for technical textiles as well as filaments for cosmetic and dental applications.

Perlon® looks back with pride at a long tradition in filament manufacture and also formulates from this its claim to be the innovation leader in this highly specialized technological area. The comprehensive product portfolio is based on a variety of raw materials. In line with the intended application, these are modified and processed into high quality, application-specific filaments. The consistent high quality of our products sets worldwide benchmarks.
