

**Cinte Techtextil China** is the ideal trade fair for technical textile and nonwoven products in Asia. This year the fair welcomes **Shanghai Jinyou Fluorine Materials Co Ltd** from **China** to showcase their **PTFE membrane-coated filter media**, which is a special process that adapts ePTFE membrane to various fabrics or paper materials, making it a new type of "microporous membrane-coated filter media".

*(Detailed product info featured on page 2.)*

### Shanghai Jinyou Fluorine Materials Co Ltd

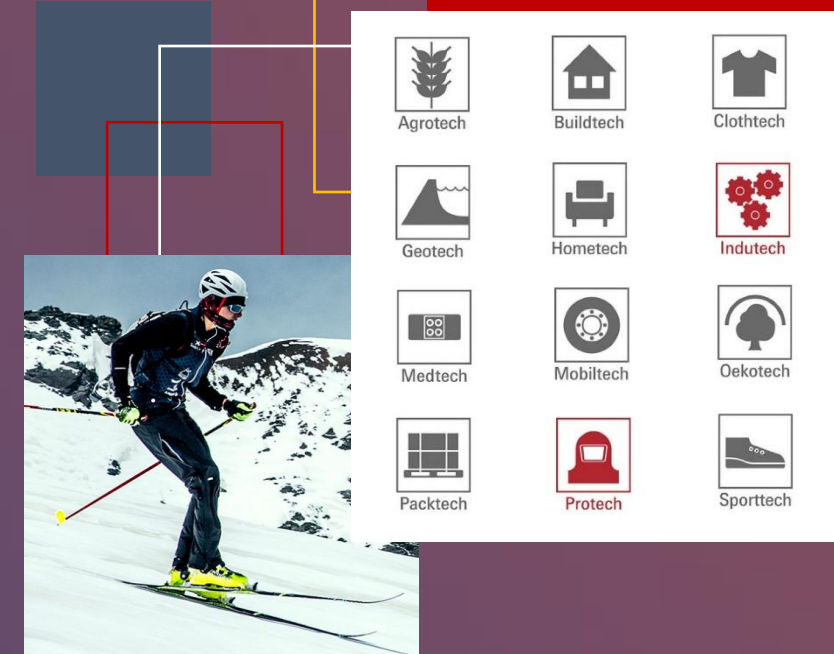

Shanghai JINYOU Fluorine Materials Co Ltd is a high-tech enterprise who specializes in producing PTFE fibers, ePTFE membrane, ePTFE sheet and PTFE pipe etc. Our products are widely used in different application such as industrial bag filter, air purification, elastic sealing, medical devices, apparel, electronics and signal transmission etc.

As a PTFE fiber leading manufacture, JINYOU is supplying thousand tons of PTFE fibers such as PTFE yarns, PTFE scrim, PTFE sewing thread, PTFE staple fiber and PTFE floss etc. JINYOU also has rich experience in making customer-tailored ePTFE membrane applied in different walks of life. Owing 38 patents, we focus our efforts in R&D with top-class innovative products.

## AN INNOVATIVE LEADER IN AIR FILTRATION

### ePTFE Membrane for Filtration

Over 35-year-experience in producing PTFE membrane, JINYOU's proprietary micro-porous structure gives ePTFE membrane high efficiency and low pressure drop with longer service life. JINYOU ePTFE membrane can be laminated with different filter media such as PTFE needle felt, glass fiber woven fabric, polyester spunbound, PPS, PE, Aramid and so on. It is widely used in waste incineration, coal-fired power plants, cement, carbon black, boiler, biomass power plants, plasma/laser cutting, heavy dust loading, pharmaceuticals, industrial welding etc.

We offer "nearly zero emission" solution for incineration bag house and HEPA options from H10 to H13.

All of our JINYOU membrane and filter media are certified with classy quality.

#### Applications:

- Air filtration
- Gas turbine
- Incineration plant
- Coal-fired power plant

### ePTFE Membrane for Garment

ePTFE membrane for garment of iTEX series own a biaxially oriented three-dimensional fiber network structure, with high open porosity, good uniformity, and high water pressure resistance. Its functional fabric can effectively achieve the effect of windproof, waterproof, high moisture permeability and muggy free. Meanwhile, ePTFE membrane for garment of iTEX series, have been certified by Oeko-Tex and PFOA & PFOS which are truly green environmentally friendly materials.

#### Applications:

- Down products
- Home textiles, clothing
- Tooling uniforms
