## Developing unique and exclusive products for niche markets

### Technical textiles:

- Automotive/ Aviation industry (sunblind – safety net)
- Medical Textiles - Substrates for coating & gumming-Reinforcement
- Silver bobbinet for electro-magnetic

"We now have a stable customer group. On the premise of maintaining the current customers, we also hope to get more cooperative relations with enterprises, so as to expand the awareness of our products. We hope to show our products to more countries through international trade shows like Cinte Techtextil China, so as to expand our reputation and find more potential customers."

- Mr Matthew Xu, Production Manager

## Swisstulle, the specialist when it comes to textiles!

Swisstulle has been present in the worldwide market for technical textiles for more than 35 years as a manufacturer and supplier of knitted fabrics. Our strength is customer-specific developments and the versatility in our offer. By integrating the individual operations – yarn preparation, knitting, specialized finishing – we are able to produce a wide range of high-quality and pollution-free knitted fabrics made of natural, synthetic and high-tech fibers.

With the development of economy, people's demand for cars increases. As the market expands, the quantity of demand becomes larger and the output needs to be increased. At this time, the factory will have more orders and obtain more stable interests.
