# Connect with the thriving market at Cinte Techtextil China 2023

## Asia's leading trade fair for technical textiles and nonwovens

The global technical textile market will expand at an anticipated CAGR of 4.7% from 2022 to 2030. In 2021, Asia-Pacific accounted for over 46% of the total revenue and is expected to continue dominating the market over the forecast period, due to increasing industrial development, favourable government policies, and an abundance of raw materials.

From 2022 to 2029, the global nonwovens market has been forecast to demonstrate a CAGR of 7.4%. Asia-Pacific is the biggest market and is anticipated to maintain its leading position, with expansion attributable to the strong regional growth of the geotextile, automotive, agricultural, medical, healthcare, construction and military sectors. Cinte Techtextil China is your gateway to the opportunities that lay ahead.

## 2021 exhibitors pleased with performance

**26,000**  
sqm gross

**366**  
exhibitors from 8 countries & regions

**91%** of exhibitors satisfied with their show participation

**89%** of exhibitors satisfied with the profile and quality of visitors

### A key industry event for exhibitors spanning multiple technical textile and nonwoven categories

Technology, processes, accessories

Fibres and yarns

Woven fabrics, laid webs, braidings, knitted fabrics

Research, development, planning, consultation

Nonwovens

Associations, trade publications

Coated textiles

Functional apparel textiles

Bondtec (surface and bonding techniques)

Composites

### Showcase your innovations to end users from 12 application areas of modern textile technologies

Agrotech

Buildtech

Clothtech

European Pavilion

Taiwan Pavilion

German Pavilion

## Industry leading exhibitors from previous editions

### Fibre, yarn and technical textiles

### Technology, equipment & accessories

### Nonwovens

## Exhibitor comment

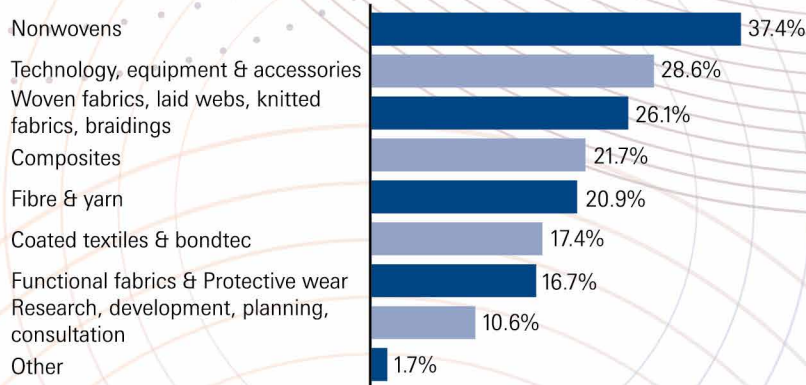

“The Chinese market is a big opportunity for everybody, because every day the market is demanding more. The potential here is incredible, and there is more demand for overseas brands. These brands are known for their very high quality, and while China’s industry has developed very well in the past few years, it still needs support from overseas brands with high quality products. This fair is good for us, and we exhibit here every year.”

**Mr Roberto Galante, Plant Manager, FMMG Technical Textiles (Suzhou) Co Ltd, China (Fil Man Made Group, Italy)**

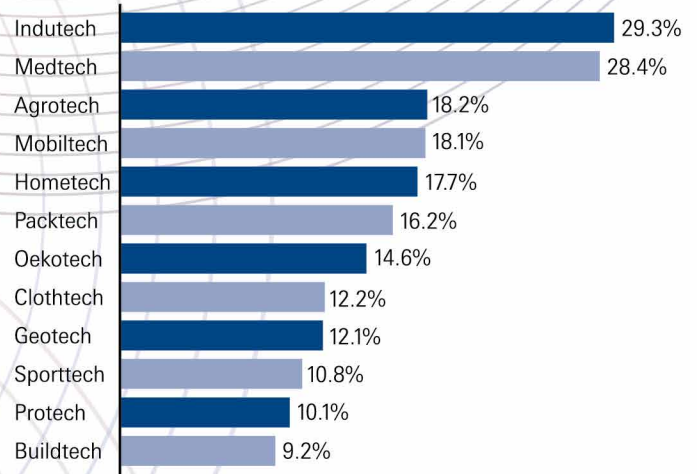

## Visitor analysis

Visitors' main area of interest by product group\*

Breakdown of sourcing interest by end-use applications\*

\*The total % is over 100% due to multiple selections.

## Visitor comment

"Cinte Techtextil China brings together cutting-edge technologies and products, allowing us to quickly learn about innovational trends in the industry. I am particularly impressed by the biodegradable products seen in the Innovation Showcase Area. The fact that the show is held once a year is beneficial for buyers like us, as we can quickly access many quality exhibitors at once, reach our sourcing targets, and keep up with the industry's development."

**Ms Claire Zhang, Senior Scientist, Personal Health, Philips Research China, Philips (China) Investment Co Ltd**

# Get inspired and build your network beyond the booth

## Seminars, panel discussions & product presentations

Interactive **seminars** open a dialogue for textile and nonwovens innovation, market trends, solutions and more.

Led by industry leaders and R&D experts, **panel discussions** add depth to the most discussed topics, providing insight and inspiration to industry peers.

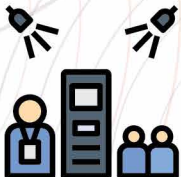

Shine a spotlight on your latest developments with the fair's **product presentations** platform, an opportunity to make business connections beyond your booth with top manufacturers, retailers, press and more.

## China International Nonwovens Conference

Concurrently held with the fair, the highly acclaimed CINC gathers influential speakers representing global nonwovens associations, research institutes, and more, to impart unique insights across multiple nonwovens categories.

## Innovation Showcase Area

All exhibitors are invited to showcase their cutting-edge products in a dedicated, centralised space, enabling visitors to further understand the potential and versatility of technical textiles and nonwovens.

## Speaker comment

"Cinte Techtexil China is a good platform for us. By participating in the seminar, we were able to introduce our latest antimicrobial concepts and technologies to many fairgoers. I think the topics of this year's fringe programme are all highly relevant to the market trends and the overall health and safety concept. In short, the fringe programme is very beneficial to the attendees."

**Mr Liu Yong, Sales Manager of Polymer Additives, Sanitized (China) Ltd**

# Apply by 31 March 2023 to enjoy an early bird discount!

## Date

19 – 21 September 2023

## Venue

Shanghai New International Expo Centre

## Participation fee

Standard booth USD 450 / sqm (min. 9 sqm)
