PERFORMANCE.

FUNCTION.

FUTURE.

part of

TEXPERTISE
the textile business network

As **Asia's leading annual trade fair** for technical textile and nonwovens, Cinte Tectextil China is a must-attend event, **connecting multitudes of global industry leaders**. With its diverse array of international and domestic exhibitors, the fair offers the chance to showcase a wide spectrum of potential applications of modern textile technologies.

Set in a prime location of the **International Hall**, the European Zone **naturally draws buyers'** attention to its wide variety of equipment, textiles, and nonwovens. Renowned for its quality products, this zone is the ideal platform to capture Asian demand for European products.

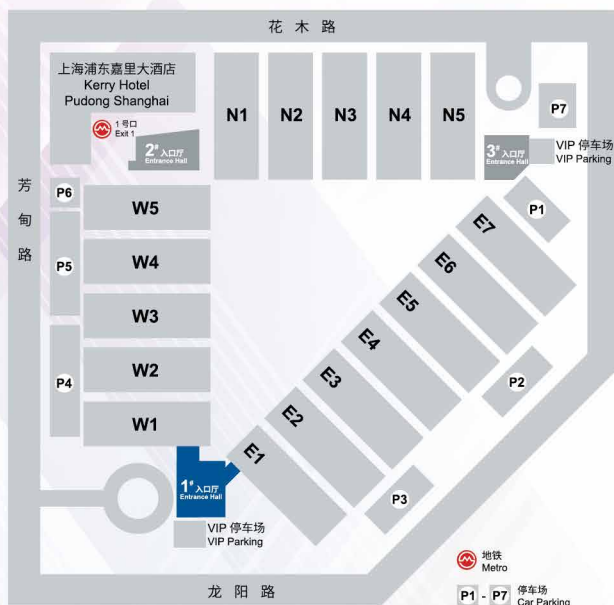

Benefits of joining the European Zone

Prime location: As the focal point of the International Hall, the European Zone is situated adjacent to the main entrance.

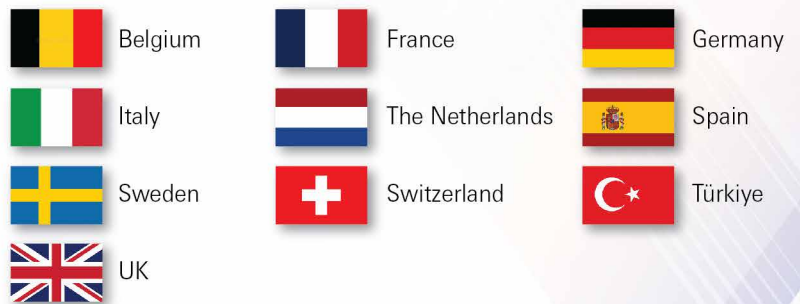

Engaging package service: Well-equipped standard size booth; invitation letter for visa application; and marketing support (coverage in eDMs sent to vast visitor database, business matching programme, and more).

Harness Europe's collective brand image: Unique design to enhance the strong reputation of European products; participation of organisations from 10+ European countries.

2023 exhibitor's testimonial

"As a German company producing automotive interior accessories, Cinte Tectextil China helps us quickly reach target customers and expand in the Chinese market, while being in the European Zone helps reinforce our branding. The new-energy vehicle industry's rapid development means more opportunities for automotive interior accessories, and the automotive textile sector's growth benefits the entire textile industry, including weaving, printing and dyeing."

Ms Jenny Zheng, Strategic Sales, J.H. Ziegler Nonwovens and New Materials (Huzhou)
