

Venue: Shanghai New International Expo Centre, China

Date: 3 – 5 September 2025

(New Debut Textile Chemicals and Dyes Zone – Hall W5

	<p><u>CHT Germany GmbH (Germany) – Booth D03</u></p> <p>The CHT Group is a global player for specialty chemicals and focuses on sustainable chemical products and process solutions. It offers tailor-made solutions for every nonwoven application including diapers, wipes, filters, surgical gowns, geotextiles and other materials. The company's modern processing auxiliaries also provide process safety and a large range of functionalities.</p>
	<p><u>Dupré Minerals Ltd (UK) – Booth D07</u></p> <p>Dupré Minerals Ltd manufactures high-quality products for the vermiculite, precision casting, friction, and refractory industries. At the show, the company will showcase its innovative Micashield Vermiculite Dispersion. This advanced aqueous dispersion of chemically exfoliated vermiculite forms a natural, high-temperature barrier, protecting technical fabrics from flame and heat. Micashield coats individual fibres and yarns using standard textile coating techniques.</p>

Venue: Shanghai New International Expo Centre, China

Date: 3 – 5 September 2025

	<p><u>Michelman Inc (USA) – Booth C02</u></p> <p>Michelman develops new materials and coatings with a "sustainability first" approach, providing binders used in the processing of nonwoven rolled goods. The company offers PFAS-free sustainable solutions in its textile portfolio, including water-based coatings, and eco-friendly barrier coatings. Its Unyte® products are used in textile market applications such as ballistics, healthcare, appliances, roof underlayment, geotextiles, and unbonded glass insulation.</p>
