Exhibitors found success in 2025

"We received **over 80 enquiries** in two days, which is excellent for our debut at the fair. Chinese visitors **appreciate seeing new European suppliers**, and we've identified **new potential markets** for filtration and air conditioning fabrics. We believe China's demand for innovative solutions is strong, particularly in fire protection. The potential customers we met are mainly Chinese – our target – with the rest from Brazil, Mexico, South Africa, Spain, Sri Lanka, and more. Our position in the debut **Textile Chemicals and Dyes Zone** boosted footfall."

Mr Reece Berrisford, Sales Manager, Dupre Minerals Ltd, UK

"This fair is very **beneficial for us new exhibitors**. We showcased our PVA filament, which is only produced by us and one other company globally. We are pleased with the foot traffic – **about 80% of contacts were new** to us. Many visitors, primarily from China, India and Korea, expressed interest, and the **diverse Asian audience is great**. A tour for automotive textiles coming past our booth, and our presentation on stage, provided **additional opportunities to promote** our products. We will exhibit again next year."

Mr Marcellus Chang, Marketing Director, JCT Industries Group Sdn Bhd, Malaysia
