## Exhibiting experience

"Several groups of overseas buyers visited us during the fair. On day one, we connected effectively with over 20 clients across sectors like medical & hygiene, aerospace, energy & construction, automotive, papermaking, environmental protection, filtration, and more. This platform strengthened our brand by linking us with new and existing customers. With a new automotive textile zone and events like innovation product presentation, the fair can help companies identify trends and market opportunities for development."
