New date for Cinte Techtex

Chinese and Asian technical textiles and nonwovens markets continue their upward trajectory

Exhibitor registration is open for Cinte Techtex

Exhibitors from around the world utilise Cinte Techtex

“It is due to the increasing opportunities in the Asian market that we are expecting more European exhibitors to feature at Cinte Techtex

Messe Frankfurt (HK) Ltd
35/F, China Resources Building
26 Harbour Road
Wanchai, Hong Kong

opportunity within Asia for suppliers to meet with the entire industry and maximise the potential of their products across various end-uses and sectors.” While many new European companies are expected this year, some of the returning big brands already confirmed include Trützschler, Dilo and Barnet from Germany, Andritz from France, Stahl from the Netherlands, Iteima from Italy and Picanol from Belgium.

Chinese and Asian technical textiles and nonwovens markets continue their upward trajectory

When it comes to technical textiles and nonwovens, the Asian region, and China in particular, is displaying impressive growth, which will remain the case in the coming years.

China overall

- The total output of technical textiles and nonwoven products is estimated to reach over 22 million tons in 2020, accounting for 30% of global production, and double that of 2013.
- In 2016, China’s technical textile exports were worth USD 23.61 billion. Nine major products surpassed USD 1.5 billion worth of exports each: medical & hygiene textiles, coated textiles, nonwovens, canvas & tarp textiles, ropes, synthetic leather substrates and package textiles.
- Growth will be seen especially in the following sectors in the coming five years:
 - Filtration & separation textiles
 - Medical & hygiene textiles
 - Geotechnical textiles
 - Structural reinforcement textiles
 - Transportation textiles
 - Protective textiles

Nonwovens

- China accounted for 10.5% of global nonwovens imports in 2015.
- China alone will account for around 57% of the Asian consumption of nonwovens from 2016 to 2020.
- According to the China Nonwovens & Industrial Textiles Association (CNITA), the following nonwoven sectors will experience the highest growth in this period:
 - Environmental protection
 - Medical, healthcare and elderly care
 - Emergency services and public security
 - New-energy automotives
 - ‘Belt and Road’ supporting industries

Man-made fibres

- China currently accounts for 65% of world market share of man-made fibres, with demand in the wider Asian region expected to remain strong in coming years thanks to growing populations and rising living standards in China and emerging Asian countries.
- The driving force is not only clothing, but also new applications such as the filtration, construction, protection and transportation industries.

Machinery

- China is the world's largest producer of technical textiles and nonwovens, and as such, imported textile machinery from 65 countries and regions worth USD 2.57 billion in 2016.
- Germany, Japan, Italy, Taiwan and Belgium rounded out the top five.

Coatings

- China is the largest consumer of textile coatings in the global market.
- In particular, there is a rise in demand for textile coatings in these sectors:
 - Protech
 - Buildtech
 - Mobiltech
 - Medtech

Cinte Techtexil China is organised by Messe Frankfurt (HK) Ltd; the Sub-Council of Textile Industry, CCPIT; and the China Nonwovens & Industrial Textiles Association (CNITA). Background information on Messe Frankfurt

Messe Frankfurt is the world's largest trade fair, congress and event organiser with its own exhibition grounds. With more than 2,500* employees at some 30 locations, the company generates annual sales of around €661* million. Thanks to its far-reaching ties with the relevant sectors and to its international sales network, the Group looks after the business interests of its customers effectively. A comprehensive range of services – both onsite and online – ensures that customers worldwide enjoy consistently high quality and flexibility when planning, organising and running their events. The wide range of services includes renting exhibition grounds, trade fair construction and marketing, personnel and food services. With its headquarters in Frankfurt am Main, the company is owned by the City of Frankfurt (60 percent) and the State of Hesse (40 percent).
